

Nature Inspires proudly presents **CAMP@FARM**

(A chance to stay safe and unfold away from the pandemic)

at
CHIGURU ECOSPACE

CERTIFIED ORGANIC FARM

A JOURNEY TOWARDS TOXIN-FREE SOIL & LIFE

A 13+ acre natural heaven located off Magadi main road near TG Halli Dam (about 35 kms from Bangalore) where integrated farming including Agriculture, Horticulture, Aquaculture and Animal Husbandry is practiced in an eco-friendly sustainable manner.

BIODIVERSITY EDUCATION CENTRE

EVERYTHING HAS A PURPOSE IN NATURE!

A living green space with over 300 species of flora and fauna. The centre is working towards creating awareness about native plant & animal diversity, preventive and curative home remedies, forgotten food sources and ever important symbiotic relationship with nature,

SEED CONSERVATION CENTRE

PROTECTING THE ORIGIN OF LIFE

Being proud of India's native agro-diversity and its rich heritage of seeds, we wish to see our local varieties survive the tough challenge posed by the invasion of hybrid seeds. The farm is engaged in production and conservation of open-pollinated, traditional varieties of seeds and is a member of Desi Seeds Producers network.

SAFE CAMPSITE FOR FAMILIES

LET'S GET BACK TO NATURE - TOGETHER!

A safe destination for families with multiple generations to come together, spend quality time, re-connect and strengthen the bonding between each other while learning and appreciating the best of what nature has to offer. The farm has all the facilities to host groups willing to experience life in a working farm.

VENUE FOR OFFSITE EVENTS

CELEBRATE YOUR OCCASION - THE NATURAL WAY

A perfect location to arrange small parties, family or corporate offsite events. The natural settings of the farm will ensure that both the hosts and guests will not only enjoy the event but will cherish the memories forever.

POPULAR ACTIVITIES @ CHIGURU ECOSPACE

EXPLORE DIVERSITY

The farm has many interesting trees and plants that are nature's gift for our well being. These include commercially un-cultivated fruits, vegetables, medicinal herbs as well as those which are/were traditionally used as part of our diet. Sharing knowledge about these and attempting to bring them back to regular use is at the centre of the farm's objectives. Our guests have always found this amazing and willingly begin their journey with us.

CAMPING IN THE WILD

Camping with family and friends is a great way to spend time together. It brings out the child within each of us and energizes by providing an opportunity to stay close and blend with nature. The farm has multiple campsites and camping equipment to spend safe time outdoors along with well maintained bath and toilet facilities.

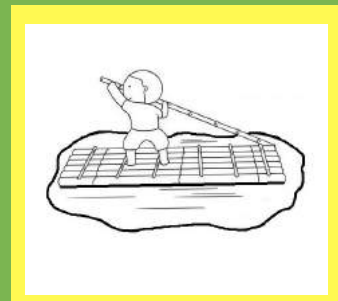

TREK / NATURE WALK

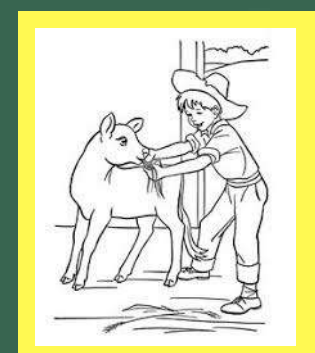

A pleasant walk amidst nature has true magical effects on an individual. Experience this feeling by exploring the hills and valley surrounding the farm during the day or with a mesmerising stroll at night. Listen to bird calls and identify useful flora. What's better when this is done under careful guidance and along with your loved ones!

BAMBOO RAFTING

Get close to one of the primary elements of nature - 'Water'. Enjoy rafting within our farm's aquaculture pond on a simple, rustic but sturdy raft built using Bamboo that is harvested onsite. Get the balance, float on water and feel the assured increase in self-confidence.

PETTING

It is well-known that spending time with pets would help relax our senses and result in immense positive spirit. We invite everyone to explore the world of farm animals and birds by actively engaging with them. Petting and getting to know about them and their significant role in sustainable farming would help increase compassion towards them.

HANDS-ON FARMING

Get your hands soiled by exploring the much respected profession of being a farmer yourselves. Visitors are encouraged to feel free and join our team in trying-out the tasks being performed on that day.

FARM VISIT INFORMATION

Chiguru Ecospace is open 24/7 for all those who respect farming and wish to enjoy nature in its pristine form. It is NOT a resort or a place to just drink and dine. Being an eco-friendly working farm, our attempt is to give a wholesome family experience of comfort, fun, learning and real-life exposure of sustainable life. Request our esteemed guests to consider this while booking :)
